INVOICING:

We are also happy to invoice schools and universities for their purchases. Please just send a list of the books you would like to Di Page at Di@criticalpublishing.com and we will be in touch to sort out the details.

About the Series and Editor

The Essential Guides for Early Career Teachers provide accessible, carefully researched, quick-reads for early career teachers, covering the key topics they will encounter during their training year and first two years of teaching.

Emma Hollis' absolute passion is teacher education. After gaining a First Class degree in Psychology and training as a primary teacher, she became Head of initial teacher education for a SCITT provider in Milton Keynes. She sees teacher education as a continuum and, whilst her heart will always be very close to the initial stages of a teacher's development, she is also dedicated to ensuring teachers are given access to high quality professional development throughout their careers. Emma took up the role of Executive Director Designate of NASBTT in April 2017 and has been in the post of Executive Director since September 2017.

Essential Guides for Early Career Teachers: Using Cognitive Science in the Classroom

By Kelly Richens Edited by Emma Hollis

This book outlines the principles of cognitive load theory and metacognition so that you can feel in control of your own learning and understand how to harness the learning of your students. It provides concise explanations and practical strategies that you can use in the classroom, enabling you to confidently plan and teach lessons with a reflective, metacognitive approach underpinned by key cognitive science principles.

Essential Guides for Early Career Teachers: Workload

Taking Ownership of your Teaching

By Julie Greer Edited by Emma Hollis

This book acknowledges the challenges that exist and suggests evidence-informed ideas that can be used both in and outside the classroom to create an acceptable workload. It takes a positive and proactive stance, encouraging early career teachers to implement strategies that will enable them to work more effectively and ultimately bring a high level of enjoyment and job satisfaction.

Essential Guides for Early Career Teachers: Mental Well-being and Self-care

By Sally Price Edited by Emma Hollis

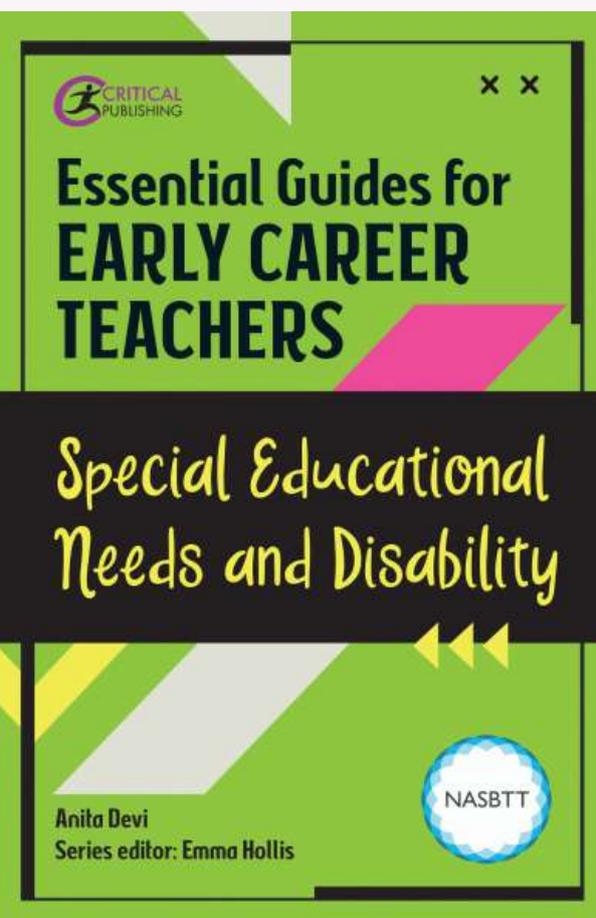

An accessible, carefully researched, quick-read on mental well-being and self-care for all early career teachers. Critical but also practical, the text guides the reader through research-based concepts and reflective tasks central to positive mental health and well-being, supporting early career teachers as they develop their teaching skills and techniques.

Essential Guides for Early Career Teachers: Special Educational Needs and Disability

By Anita Devi Edited by Emma Hollis

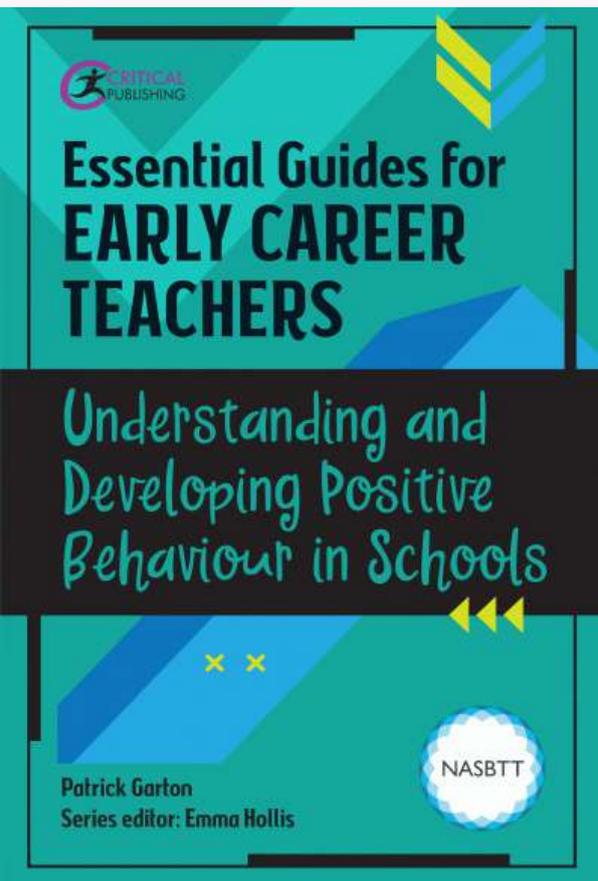

This book provides you with the required knowledge and skills development around special educational needs and disability (SEND) as you progress through your early teaching career. Using an audit tool, the text builds on any previous training enabling you to ground and embed your practice for children and young people presenting with SEND. It recognises the increasing challenges you may face and distils the theoretical into usable techniques in the classroom.

Essential Guides for Early Career Teachers: **Understanding and Developing Positive** **Behaviour in Schools**

By Patrick Garton Edited by Emma Hollis

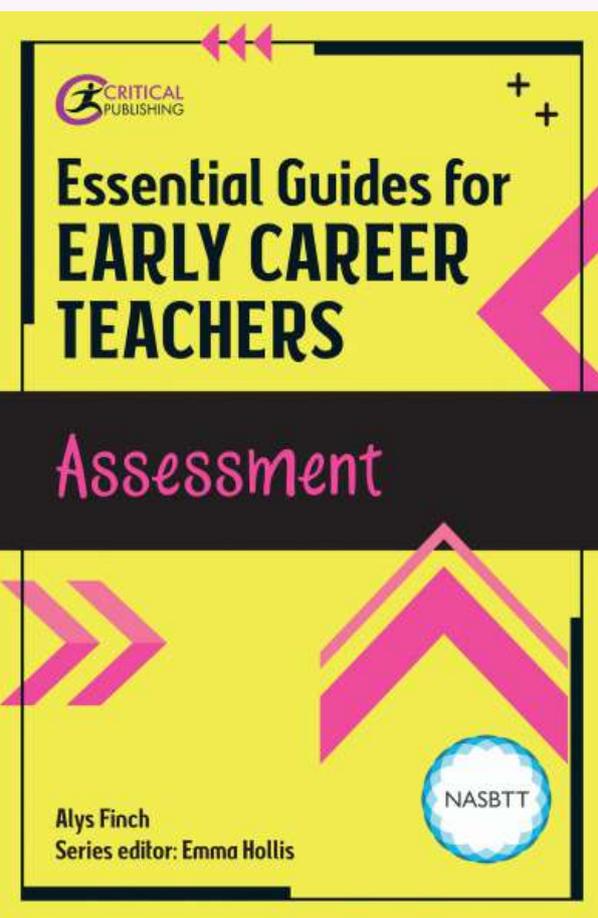

This book offers key psychological insights into the factors that lie behind different behaviours, helping you understand and manage your own behaviours as well as those of the children and young people you teach. Chapters cover understanding individuals, the classroom environment and the wider school context, as well as working with parents and carers.

Essential Guides for Early Career Teachers: **Assessment**

By Alys Finch Edited by Emma Hollis

This book provides a range of practical but critically engaged strategies and approaches to assessment. It offers a brief history of the core ideas and educational philosophy underpinning these, looks at links to planning and reflection, examines the concept of progress over time as a mirror for quality teaching and learning, and explores the idea of pupil self-assessment.
